Characteristics:

- Multi-level
- Modular and scalable
- Less weight, lower cubic displacement
- Less time and manpower to assemble
- Power and LAN cables easily integrated
- Can be configured to a wide variety of layouts
- Custom sizes available

Two standard sizes available:

- Medium Stage System is two levels (8 in. and 16 in. high). Each level is 24 ft long and 6 ft wide. The medium stage system can seat approximately 16 personnel.
- Large Stage System is three levels (8 in, 16 in, and 24 in high). Each level is 28 ft long and 6 ft wide. The large stage system can seat approximately 30 personnel.

Bike Track® Tactical Command Post Staging Systems provide enhanced command and control capability in a tactical environment. Work platforms at graduated heights provide improved line-of-sight between commanders and subordinates. The entire command area has improved visual access to tactical display screens.

Bike Track® Tactical Command Post Staging Systems can be installed wherever tactical operations occur. Each system consists of decking made of **Bike Track®** modular flooring, rugged interlocking 4 ft x 2 ft and 4 ft x 4 ft steel frame sections, steel tube legs with adjustable feet and safety rails.
